Dear Computime Customer:

In response to your inquiry regarding Computime's activities relative to **REACH**, the European Union Regulation concerning the Registration, Evaluation, and Authorization of Chemicals, please be advised the following:

#### Awareness and focus

Computime is fully aware of the European REACH regulation and has dedicated programs and resources to deal with relevant legislative requirements and business continuity concerns related to REACH.

#### Pre-registration of substances

Although Computime is principally a supplier of articles which do not require registration, we have been actively pursuing a process of contacting our suppliers of "substances, preparations, and articles" to ensure that all necessary pre-registration and subsequent registration requirements are complied within the required timescales. This effort extends to all materials used by Computime that are within the scope of REACH and with regard to the applications in which the materials are used in our products.

#### Ongoing supply of our products

As a result of the above mentioned efforts, we expect that REACH will not interfere with the supply of materials used in Computime's products and that there will be no interruption in the supply of Computime's products to our customers.

#### Substances of Very High Concern (SVHC's)

Computime is aware that the European Chemical Agency (ECHA) has identified substances that are under consideration for inclusion in Annex XV as Substances of Very High Concern (<https://echa.europa.eu/candidate-list-table>). Although we have already determined that the vast majority of our products do not contain any of these SVHCs above the threshold of 0.1% by weight, final completion of these assessments is awaiting responses from a small percentage of our suppliers. If any Substance of Very High Concern is identified in any of our products above the threshold of 0.1% by weight, Computime will make relevant notification accordingly.

This statement is made with Computime's best commercial effort to verify the compliance of its suppliers excluding those components are purchased base on a customer approved manufacturer list (AML).

Should you have any further questions, do not hesitate to contact your Computime Business team
